

CNDDDB Subscription and Renewal Form

The California Natural Diversity Database stores information on the locations and condition of California's rare species and natural communities for retrieval via a computerized data management and mapping system. The entire inventory can be purchased in the form of a PC database application called RareFind 3 on an annual subscription basis. It can be used either as a stand-alone research tool or linked with the GIS applications ArcView or ArcGIS for even greater flexibility.

Your CNDDDB subscription includes:

- ✓ The CNDDDB – available on CD ROM (RareFind 3, GIS, and metadata).
- ✓ Six-month updates on CD, or monthly updates via Department of Fish and Game's password-protected Internet download site. Call for URL and password. A broadband connection is necessary.
- ✓ GIS coverage for use in ArcView, ArcInfo or ArcGIS.
- ✓ Map overlays at \$20 per USGS quadrangle.

Organizations can make as many copies of the data and application as necessary for their internal use, but cannot make copies for distribution outside of their organization.

To subscribe or renew, fill out this online form and click the "Send" button. You may also mail or fax the form to CNDDDB (see above).

\$300 – New Subscription

\$200 – Renewal (not lapsed more than six (6) months)
